

Security door fail- unlocked strike

331UF 331UF

Product description

Model with adjustable FaFix® latch which features electric strike latch alignment.

The 331UF series is guaranteed to work reliably in interlock systems, on soundproofed doors and on doors where pressure on the keeper is expected due to the structural design.

Overview of Advantages

- Sturdy design for demanding requirements
- Recovery diode
- Reliable unlocking under preload
- FaFix® latch with 2 mm adjustment range

Note

- Can only be used as a supplementary locking device on fire doors
