

Product description

20-pin lead cover for power transmission between frame and leaf

Overview of Advantages

- Lead Cover for concealed fitting
- 24 mm width switch box
- With integrated flexible cable to prevent cable breakage
- Clamp/plug connector technology, 20-pin
- With 2 jumpers to the bridge of PIN 1+2 as well as 3+4 for increase of power load
- One-sided switch box suitable for wood, metal and plastic profiles
- The 10313-24 accessory set with 2 curved end pieces lends itself as an accessory for the switch box in wooden profiles

Technical data

Input operating voltage	24 V +20%
Max. current consumption	1 A 100% ED, 4 A max. 1 sec. 10% ED
Max. current consumption	2 A 100% ED, 5 A max. 1 sec. 10% ED
Contact resistance per signal	0,21 Ohm
Signal transmission	20-pin
Connecting cable	Plug-in device
Version	One-sided switch box/angular mounting plate
Material spiral hose	Stainless steel
Material spiral hose	Stainless steel
Max. permissible horizontal rotation	100 mm
Cycles at 180 turns	1000000
Length	330 mm / 200 mm
Length	24 mm / 24 mm
Length	33 mm / 19 mm

Article number	10314-34-----00
